# Aiiroh

Born in the South of France in 1987, Aiiroh is an established French artist.

Aiiroh has been a renowned Street Art artist for 10 years. Since 2010, he has been in more than 50 galleries around the world exhibiting his creations.

In some of his works, he incorporates brands to remind us of the dependence human beings have on consumer products.

The graphic strength of these brands and the subliminal effect it has on our collective unconscious and on our aesthetic codes. He simply declares himself a follower of "Pop artists" mixed with street influences.

He created a series that sold out in 2 weeks called "Mixed n Pop". The media was very different, with no posters, just painting and the use in the collage of real Swarovski stones.

In line with its Pop-art predecessors, Aiiroh uses mixed and current techniques such as the collage of Swarovski Crystals, acrylic paint, stencil, gel, posters.

For six years, he has endeavored to reinterpret iconic figures and pop symbols through posters he finds in the streets of Paris, Marseille, Lyon, Toulouse, Narbonne, alongside his old graffiti "spots".

Two monumental pieces are on permanent display at the W hotel in Switzerland.

He worked in collaboration with the famous chef Nobu and the luxury watch brand Hublot. Aiiroh also designed a bottle art for the prestigious French winery Bertaud Belieu in St Tropez.

His works have been collected by many celebrities, including major hip hop icons and international actors. It was exhibited at Art Basel in Fontainebleau - Miami.

He is ranked among the best French artists in terms of auction results.

# Banksy

Banksy is a pseudonymous England-based street artist, political activist and film director whose real name and identity remain unconfirmed and the subject of speculation.

Active since the 1990s, his satirical street art and subversive epigrams combine dark humour with graffiti executed in a distinctive stenciling technique. His works of political and social commentary have appeared on streets, walls and bridges throughout the world.

Banksy's work grew out of the Bristol underground scene, which involved collaborations between artists and musicians. Banksy says that he was inspired by 3D, a graffiti artist and founding member of the musical group Massive Attack.

Banksy displays his art on publicly visible surfaces such as walls and self-built physical prop pieces. Banksy no longer sells photographs or reproductions of his street graffiti, but his public "installations" are regularly resold, often even by removing the wall they were painted on.

Much of his work can be classified as temporary art. A small number of Banksy's works are officially, non-publicly, sold through an agency created by Banksy named Pest Control.

Banksy's documentary film *Exit Through the Gift Shop* (2010) made its debut at the 2010 Sundance Film Festival.

In January 2011, he was nominated for the Academy Award for Best Documentary Feature for the film.

In 2014, he was awarded Person of the Year at the 2014 Webby Awards.

"Love is on the bin," one of his work has been sold for almost 20 million dollars in October 2021 after being sold and soon destroyed during an auction with a hidden tool on the opera frame.

# Karl Lagasse

Karl Lagasse, born in Paris, is a French artist. He is the creator of the One Dollar sculpture as well as the trophy for the 43rd edition of the Deauville American Film Festival.

Karl Lagasse was born on April 4, 1981 in Paris in a family of artists. He grew up in Deauville in Calvados in Normandy where he was notably educated at the Fracasse primary school and then at the André Maurois high school. Sensitized to art very early, he began at the age of 7 to make collages for his mother. It was at this time that he met the famous sculptor César.

To celebrate the 65th anniversary of the Cannes Film Festival in 2012, he made a "Building" of 2.80m by 60cm wide in cement, wood, glass and photos in collaboration with Corbis and exhibited at the Carlton Cinema Club. The artists present at the festival are invited to sign the work, to leave a message on it. This is what José Garcia, Michel Hazanvisius, Bérénice Bejo, Gad Elmaleh, Cuba Gooding Jr., Tim Roth, Matthew McConaughey and Zac Efron do.

Maserati contacted Karl Lagasse for the first time in 2014, with a view to a collaboration to celebrate the centenary of the Italian prestige brand and the global launch of the new Ghibli. This model serves as a basis for making the work called "Psalm 2". It was presented to the public during the Art Paris Art Fair of the same year.

A year after their first collaboration, Karl Lagasse and Maserati find themselves again within the framework of the realization of a monumental installation, entitled "A Piece of Heaven on Earth". This work is composed of a Maserati covered with a white plastic film and a statue of Jesus Christ, at the feet of which several One Dollar sculptures represent the repayment of the greatest debt of humanity. The public discovers this installation during the Art Paris Art Fair 2015.

In 2016, a 2 m high One Dollar, entirely made of bronze, was exhibited at the Art Paris Art Fair. The President of the French Republic congratulates him in person for his work. The same year, he exhibited at the Atrium Gallery in Marbella where he presented several new paintings and sculptures.
